SWEETHEARTS BALL

Exactly one month from today the big dance of the Forestry College social calendar will take place-- that is the SWEETHEARTS BALL. This big annual dance will be held February 12, 1955 from 9 to 1 in the student lounge, and the price has been dropped the sum of 5¢ and is now the low, absurd, ridiculous price of \$1.75. Never before in the history of our college has the price of a dance of the caliber of the Sweethearts' Ball been offered at such a drastic cut. (J.P. Byrnes couldn't have done as well!)

A big name band will present the music from its eight members and big entertainment is planned for the intermission, so you guys had better start getting your dates lined up, and you married men just let your wives know about this dance and they'll decide for you whether you are coming or not. The dress is semi-formal, but don't let that scare you-- you stummies can wear your boots and you can always find your date a 'tater sack.

Tickets are on sale by every one, especially members of the Forestry Club Cabinet; in fact if you want to get into the action, see Bob MacLea, dance chairman, and he will give you some tickets to sell. Sell only ten of these and you will get one free! ! In fact, if you want to do the editors of this rag a big favor, buy your tickets from them. All students, faculty, and staff, and as far as that goes, anyone wanting to go to a good dance, get a ticket to this one.

One of the highlights of the night will be the selection of the College of Forestry Sweetheart, chosen from among the dates at the Ball.

NOTICE TO THE NONCOMFORMIST

It seems that we are unfortunate enough to have in our student body certain individuals who are not yet mature enough to refrain from some of their more juvenile instincts. I am referring to the recent supposedly humorous attempts at changing posted club meeting notices. These changes are no doubt being made by the same characters that nobly draw filthy pictures and write the witicisms on the mens' room walls in both Marshall and Bray Halls. You certainly must feel proud of yourself and your accomplishments.

What you don't seem to realize, among other things, is that there are students here in the College of Forestry that take an interest in the school and extra-curricular affairs. Those students often spend considerable time and money to try and make the students organizations worth while and interesting. Those students of the student body who do not wish to participate in them don't have to, but the least they can do is not try and spoil it for those who are interested. So to you whom this notice applies, I have one suggestion-- you are in college now, so why don't you grow up!!

Art Flick

ROBIN HOOD wishes to thank those who contributed to the photo contest. Winners will be announced in the KNOT HOLE after mid-semester.

ZOO CLUB would appreciate help from the students by filling the questionnaire in Bray Rotunda on different types of mounts for display.

?????????EXAM QUESTIONS?????????????EXAM QUESTIONS?????????????

The following questions are actual ones which you might well expect to find on your final exam. They were appropriated through extensive research of the KNOTHOLD MVD staff. This is the first time to our knowledge that exam questions were printed for public consumption before the exam was given!!!!

BOTANY 1a- Look for a specific question on the use of the microscope.

W.T. 1 & 2- Know who the father of dendrology is.

SURVEYING- Know how to determine the least count of a vernier.

W.T. 3- Know the tissues that make up the bark.

UTE 1- Know about machine rate and its application to logging operations.

G.F. SENIORS- Jack will ask a question on relative importance of various species of trees in Alaska. Bill Duerr will want to know the effect of interest rate on the practice of forestry.

UTE 104- Hal Gatslick will expect you to know the primary considerations in dry-kiln schedule adjustment.

GRADS- Better know how to distinguish between validity and reliability when F^o 109 exam comes around.

P&P 104a- Problems may combine 2 unit ops.

P&P 1a- Be sure to know chemical calculations.

SENIORS*** Don't forget to go to room 301 in the main library this week and tell the Apeda rep your choice of Senior picture. Be sure to tell him you are from the College of Forestry.

CABINET MEETING

Empire Forester coming along fine...Woodchopper's Brawl report(At last) shows a net profit of \$68.36.....The constitution revision committee has finished its work on the constitution and has submitted it for approval to the Cabinet and after this it will be submitted to the Forestry Club for approval. Since the present names of the Club and Cabinet seem to be nondescriptive the Cabinet has suggested Forestry Student's Association to replace Forestry Club and Forestry Student Council for Forestry Club Cabinet....New records have been purchased to play before convos.....Axes will be presented to the winners of the Barbecue chopping contests.....A change in the school calendar will be considered by Syracuse University which would eliminate Thanksgiving and Easter vacations and extend Christmas vacation and give a Spring vacation. The Cabinet is not in favor of this idea....The Camera Club constitution was accepted.

According to the State University NEWSLETTER, State University of New York is second only to the University of California in full-time enrollment with 30,578 students. Our College has 657 full-time and 22 part-time students.

SAFENGERBUND - Meets tuesday in Baker Auditorium.

FORESTRY CLUB CABINET will meet every Mon. at 4:15 unless otherwise announced.
