TILING THE LOUNGE WITH "KNOTHOLES"

Last week in convo, a cynical character remarked that he didn't care if anybody read the "Knothole" as long as they were picked up off the floor. But when the same cynic strolled through the lounge that afternoon, he had to wade through a pile of "Knotholes" which several thoughtful animals had sprinkled generously on the floor.

Now, the "Knotholes" are piled neatly in various places for the convenience of those who wish to read them. And consequently, several trash receptacles are located conveniently for those who wish to discard their used "Knotholes".

If individuals care to amuse themselves by tiling the lounge floor with "Knotholes" and if this amusement includes milk cartons and candy wrappers, the man to see is your class president who in turn will put it in the form of a motion at the next meeting of the Forestry Student's Association. If they think that the student body wants its lounge to resemble a pig pen, they will establish it as a precedent.

LONG TERM LOAN FUND

Last year the Alumni Association of the college established a long term loan fund to supplement the short term fund. Both funds are now in operation. Several seniors made use of the fund last year. It is also available to juniors who can qualify. Further details are available in the Dean of Students' Office.

SAENGERBUND RIDES AGAIN

In our last chapter entitled "Resurrection, Rebirth and Rejuvenation of a Grand Ole Tradition", our heroes had banded successfully together during leaf fall '54, and squandering the tidy stipend from Club Cabinet, they managed to limp through several choral presentations. The year ended successfully with a contribution of blended male voices to the festivity of the Banquet.

This year the group has adiposed to 26 and is one of the few clubs offering a student the opportunity to participate shoulder to shoulder with the professor who just flunked him. With a concert on November 12, a student convo presentation and several dance and banquet engagements in the planning stage, we extend our most felicitous invitation to all interested in making noise. We meet Tuesday nights at 7:30 in the lounge.

Advantages to members: reasonable rationalization for not doing homework; free entrance to dances we sing at; an invitation to our annual tea; rare opportunity to improve our moose and duck calling. Do be our guest. Do!!!

Jim Hayes ___ Saengerbund

NEWS FROM THE EMPIRE FORESTER

Oswald Werner of Continental Photography has been secured to take the senior class pictures on December 6 and 7. The location is above the post office on Marshall Street. NAMES AND TIMES TO APPEAR ARE POSTED ON THE BULLETIN BOARD. If any senior should and does not appear on the list, please see me immediately.

Club photos are now and will continue to be taken for several weeks. CHECK THE BULLETIN BOARD FOR TIME AND PLACE. At least one week notice will be given for each club.

COLOR SLIDES!!! COLOR SLIDES!!!

If you want to win a big prize and think that you have a good color slide of any type, then come to the camera club this coming Tuesday for a viewing of the best color slides in the nation taken by members of the Collitch. This will be the last and final entry date for color slides which will be shown in Bray Rotunda on the new giant screen for a full week. So bring in some slides and they may be chosen, this Tuesday, Nov. 22, at 7:30 in room 316 Bray.

A GRIPE ON A GRASSROOTS ISSUE

It seems to me that most Foresters realize the value of a decent looking campus and have maturity enough to respect the beauty of our lawn. However, it has come to my attention, that we have many cross-campus-kiddies, and some Foresters walking across the lawn instead of taking a few extra steps around the path laid out for that purpose. As some of you older members of the college may remember, the University campus was one big mess because people walked across their lawn and made paths for themselves by their big, fat, feet, trampling on the poor, little, blades of grass. They don't have that any more because they've put walks in where the foot paths were. We never have had to descend to such a level because whenever someone chanced to put a fat, flat, foot on the lawn there was a big howl from all of the windows in both buildings. It is time again to put the lazy and the immature in their place by lifting that window and giving a big yell when the offenders cross the lawn. It's O.K. with most of the profs, in fact some cooperation from the faculty on this matter would be appreciated - it's their lawn too.
