LAWRENCE J. BELANGER
ASSISTANT TO THE REGISTRAR

Dec. 31, 1951

Effective January 1, 1952, and continuing until a successor to the Dean is officially named or other notice is given, Assistant Dean Hardy L. Shirley will serve as Acting Dean of the College.

Joseph S. Illick,
Dean

ON ZOO CLUB AND WILD BOARS

The Zoo Club will meet at 7:30 p.m., Fri., Jan. 11, in 222 Marshall to hear Prof. Stegeman speak of "Wild Boar on the Cherokee Nat'l Forest of Tennessee." Everyone is invited.

PHOTO CONTEST ENDS JAN. 9

The pictures for the Robin Hood Photo Contest should be turned in at the Ibon library desk by Wed., January 9, the last day. As well as receiving cash awards the winning photos will appear in the Empire Forester.

The editors wish to extend their sympathies to Harry Beckmann, soph in the P & P Dept., whose father died Dec. 14, and to the parents and sister of Harry Carlson who suffered a fatal cerebral hemorrhage Dec. 12. Harry was a soph in the LE Dept.
We're a bit late with this information, but for some time now, Prof. Heiberg's cousin, noted silviculturist Hans H. H. Heiberg from Norway, has been visiting our campus and delivering a series of special lectures as a climax to his tour of forest lands in this country. He will stay here until Jan. 9.

More recently it was announced that Prof. Svend Heiberg, himself, is doing some traveling. Prof. Heiberg, head of the silviculture dept., left Dec. 27 for three months at the University of Washington in Seattle. He is only the second forester in 15 years to be awarded the Walker-Ames professorship. While there, Prof Heiberg will deliver several lectures and will be available for consultation.

EXAMINATION SCHEDULE

We decided that the examination schedule, as released by the registrar's office prior to Christmas vacation, was a bit too bulky to print again. It can be found on practically every bulletin board. For courses not listed, consult your instructor or the University Examination Schedule. Be sure to report all conflicts to Prof. Belanger.

LOBEAU, HOFMANN, MCKENZIE

CHALLENGE TUCKERMAN'S RAVINE

While most of us were out Christmas shopping, Don LeBeau, Pete Hofmann, and Tom McKenzie were sloshing through heavy snow in an attempt at making Hermit's Lake in the Adirondacks. The primary purpose for this chilly expedition was to practice mountain climbing on the headwall of Tuckerman’s Ravine under icy and snowy conditions. The three fellows ran into all sorts of difficulties including a blizzard, a frozen toe which forced Don to return early, and rough going on the headwall.

Don has had previous experience in the Tetons; Pete, who was born in Vienna, has climbed the Matterhorn in the Alps; and Tom has had considerable trail experience both in the Adirondacks and on the Appalachian Trail.

1 of 300 Club

Shortly before vacation the Daily Orange stated that only one of every 300 skiers is injured. We wish to inform you that John Knapp ’52 has joined the 1 of 300 Club.

Congratulations to Prof. Donofrio, better known as Pete, who had perhaps the merriest Christmas, being blessed with a baby girl on Christmas day.

No longer forward or behind

I look in hope or fear;

But grateful, take the good I find,

The best of now and here.

-- John Greenleaf Whittier

This will be the last issue of the Knot-hole this term.

We hope, but make no promises, that our next issue will be a special edition featuring the semi-formal Sweetheart's Ball on February 9, and will appear early in February.

Good luck to all of you on exams, and you of the class of ’52 remember — — — they don't flunk seniors!
