BRAY NOTES

We've been informed that a well-known registrar of the College of Forestry, who insists on punctuality at his English class, was seen walking into a Lincoln Auditorium concert 15 minutes late.

We also have it that a well-known assistant to the registrar and accounting instructor who insists on accurate records was slightly embarrassed to find that Pierpont and Turnbull actually were middle names and not practical jokes after all. In all fairness to the students who do have those names, we'll keep their identity a secret.

LETTER TO THE EDITOR

Out West

Nothol Editters,

Please warn my friends again this blunder of stirring coffee with thumbs. This dangerous fad is very popular here but it don't work. I burned both of mine.

W. B. Nifkin

Ed. Note — We have the sneaking suspicion that we're being taken.

HERE AND THERE

AT THE SWEETHEARTS BALL

We lack the words to describe the spectacle of Bob Johnson riding up and down the corridors on the watchman's bicycle, blowing the squeegee horn for all he was worth. Dim red lights sure make bare shoulders look soft and smooth — there must be something to dancing after all. George Moore's date, Nancy Watkins, a home ec frosh, was chosen Forestry Sweetheart of 1952 by judges Prof. Bradford Sears, Prof. Charles Bonsted, and James G. Crowley, Esq. Peggy Wolcott and Geraldyn Bewley were the other finalists. C. N. sure sang a tremendous solo for the Sangerbund during intermission. 143 full bottles of coke, which could have been refunded and thus saved a little of the dance expense, were filched over the weekend following the dance.

Though the Cabinet lost money on the dance, it was considered a success because of the publicity Crowley got for the event, and because of the good time everyone had.

Suffice it to say that we're glad to see a milk machine in the Brav lounge.

OFFICERS RECEIVE KEYS

For the first time in a number of years the elected officers of the forestry club cabinet and the editors of the Empire Forester (and maybe even us) will receive free keys as a token of the hard work and time they have given during the school year. This constitution article had not been enforced in the past.

The guy decided to reform. The first week he cut out smoking. The second week he cut out drinking. The third week he cut out women. The fourth week he cut out paper dolls.
