Sly Drool!

The Engineer's sheet has finally adopted the name given it by the Knothole. The name used to be Slide Rule but the Editors of the Knothole renamed it the Sly Drool during a feud between the engineer's and the forester's publications several years ago. Because the Sly Drool had the audacity to call this great publication the Not Whole, the editors have stolen a couple jokes from it.

Student nurse: "Everytime I bend over to listen to his heart his pulse rate goes up alarmingly. What should I do?"

Intern: "Button your collar."

PC&P man: "I'm forgetting women!"

GF man: "Me too. I'm for getting two or three and having a party."

(Editors note - You can get yours when you buy your ticket to the Cooks n' Cutters Ball.)

The above jokes were used without permission from the Sly Drool.
