TIME FOR A CHANGE

Our literary abilities being spent we relinquish our positions on The Knothole staff to the promising journalists of the new Alpha Xi Sigma membership. We have enjoyed serving the students through the publication and hope we have satisfactorily carried out our job.

We probably have not caused any campus-shaking changes in life at our College but have served as a necessary medium of exchange which can more greatly unite a student body. So we extend our appreciation to those who contributed to The Knothole during the past year and to the girls who had the typewriter and printing press always ready to go in our behalf.

The Editors

BOTANY CLUB?

In the past few years, there has been a revived interest in clubs here at our College. Such organizations allow the student to pursue his or her interests in a particular field outside of the classroom. Clubs dealing with the biological sciences tend to be of more interest to the general student body in that they pertain to outside interests of most students as well as being major fields of study for many.
Presently we have a Zoology and an Entomology Club. Several students have expressed a desire in starting a Botany Club.

All those interested in helping start such a club should sign the list posted on the bulletin board outside Marshall Lounge.

SUPPLEMENT TO ANNOUNCEMENT OF FINANCIAL AID

The Alumni Association of the college announces the establishment of an additional program of financial aid.

Beginning in September, 1963 the Association will award several Alumni Educational Grants up to $500 per year. Any undergraduate student, regardless of curriculum, may make application for one of these grants.

Forms are available in Room 107 Bray Hall. Applications are due on or before April 15. See Mrs. Spear for details.

FROM MOOSEWOOD'S NOTEBOOK

#15

"A word is not a crystal, transparent and unchanged; it is the skin of a living thought and may vary according to the circumstances and the time in which it is used."

Oliver Wendell Holmes, Jr.

"Imagination is more important than knowledge."

Albert Einstein

(Selected from the works of Ogden Nash)

The Guppy

Whales have calves,
Cats have kittens,
Bears have cubs,
Bats have bittens,
Swans have cygnets,
Seals have puppies
But guppies just have little guppies.

The Hunter

The hunter crouches in his blind
'neath camouflage of every kind,
And conjures up a quacking noise
To lend allure to his decoys.
This grown-up man, with pluck and luck
Is hoping to outwit a duck.
DAVID SCHORER, P & P JUNIOR, DIES IN HIGHWAY ACCIDENT IN SOUTH CAROLINA

David H. Schorer, 22, a junior in Pulp and Paper Technology, was struck and killed by a car Saturday evening near Marion, S. C.

Funeral services will be held at 11 a.m. on Thursday (April 4) at Hendricks Memorial Chapel. The Rev. Dr. Charles C. Noble, dean of Hendricks Chapel, and the Rev. David E. Engel, Hill Presbyterian chaplain, will officiate. Brothers of Kappa Phi Delta, forestry social fraternity, will serve as pallbearers.

Forestry students attending the funeral services will be excused from classes. All absences should be reported to Mrs. Spear in room 108 of Bray Hall.

In charge of funeral arrangements is the Garfield Funeral Home of 515 Westcott St., Syracuse.

A brother of Kappa Phi Delta, he had served as house president in 1961.

A resident of Valhalla, N. Y., he was returning to Syracuse from Charleston, S. C., where he had visited the brother of Gail Reichenback of Bolton Landing, a junior in Liberal Arts. Miss Reichenback, who was not injured, was a passenger in his car at the time of the accident.

According to police, Mr. Schorer and Miss Reichenback were driving north on U. S. #301. When car trouble developed, he pulled his auto off the road.

He was working on his car when another vehicle struck him, hurling his body about 50 feet.

Mr. Schorer was working his way through college. After his sophomore year, he had dropped out of school to work for a year on the West Coast.

Mr. Schorer was a graduate of the Mount Hermon School, Mount Hermon, Mass.

Dean of Students Raymond F. Grossman said Mr. Schorer was a good student and well-known throughout the college and the university.

"He worked for many of the faculty members at one time or another," Dean Grossman commented. "He was a hard-working and dependable young man, and well-liked by everyone who knew him."
