IMPORTANT NOTICE

The Chairman of the Safety Committee, Prof. Harry W. Burry, has announced that the first fire drill of the year will be held at 11:45 a.m. on Thursday, October 12th.

ANNUAL FORESTRY BARBEQUE

The annual College of Forestry Barbeque will be held on Wednesday, October 11th, at Green Lakes State Park. This is a long-standing traditional event in which students, faculty and administration participate in a series of outdoor activities beginning early in the morning and extending through late afternoon.

The College of Forestry will suspend all classes on October 11th. Forestry students enrolled in Syracuse University courses will not be required to attend on that day. However, each student will be responsible for work he misses.

We would appreciate your cooperation in making whatever adjustments are necessary for this event and to allow a reasonable time period for making up class work missed on that date.

The above was sent in the form of a memo to all Syracuse University faculty members by Raymond F. Crossman, Dean of Students, on October 3, 1967.
ATTENTION STUMPIES!

As everyone should be aware of by now, the annual College barbeque will be held (rain or shine) on October 11th at Green Lakes State Park. Benefits of attending include:

1) a legitimate excuse from classes
2) all the free food and drink you can possibly consume
3) organized interclass competition in:

<table>

</table>

Bus transportation will be provided to and from Green Lakes. It is free and will leave campus (from Baker Lab area) at 8:00 a.m. and every hour on the hour until 11:00 a.m. on the 11th. Further transportation to the barbeque will be available upon the return of these buses. See Marshall Lounge bulletin board for sign up sheets and further information.

So-----give up the books for a day and get out to Green Lakes on Wednesday, October 11, 1967.

Official College of Forestry sweatshirts and T-shirts will be on sale at the barbeque.

THE GRADUATE OFFICE LOOKS AHEAD

At this time of the year, seniors at the College of Forestry begin to look ahead to June commencement and the end of their undergraduate days. At the same time, many of them should be looking forward to a period of graduate study to work for Master and Doctorate degrees. These are days of great specialization and, in many cases, professional advancement comes only with specialized graduate education.

Dr. William L. Webb, the Director of Graduate Studies at the College of Forestry, has indicated his interest in talking with students about graduate study. He recently pointed out to a Knothole editor, that interested students should plan to take the Graduate Record Examination (GRE). This is a test which covers general aptitude for graduate study in verbal ability and quantitative ability. In addition, there are a series of advanced tests which score the student on basic knowledge in his field of major interest. These special fields include biological science, chemistry, business, language, etc.

GRE scores are now required by most graduate schools. Dr. Webb urged all seniors who think they might be interested in graduate study to plan to take the test. It is given at Syracuse University on six different dates in the next two semesters.
Students must register to take the tests several weeks in advance of the test dates. The earlier dates are preferable. A booklet on the GRE and registration blanks are available in the Graduate Office -- Room 200, Bray Hall.

"This is a most important step in the process of being admitted to a graduate school", Dr. Webb said, "Seniors have nothing to lose by taking the test. In fact, they have much to gain because it will suggest their ability to handle a graduate program."

William L. Webb
Director of Graduate Studies

ATTENTION - FOREST ENGINEERS

There will be a meeting of the recently formed Forest Engineers Club on Thursday, October 12th at 4:00 p.m. in room 212 Bray. We need your ideas and support. If you cannot attend this meeting, call Tom Urbanik at S.U. X2470 or 478-5302.

FACULTY APPOINTMENTS

Seven new appointments to the faculty of the State University College of Forestry at Syracuse University have been announced by Edwin C. Jahn, acting dean of the college.

The new faculty members are: James P. Bambacht, instructor of Pulp and paper technology; William M. Belden, research associate in landscape architecture; Raymond C. Cassidy, associate librarian; William J. French, instructor of forest botany; James R. Johst, instructor of landscape architecture; Bertram H. Knouse, assistant librarian, and Leo W. Welch, assistant registrar.

Bambacht earned an A. B. degree at Kalamazoo College in 1954, and an M.S. degree at the Institute of Paper Chemistry in 1956, and for the past nine years has been a research project leader at the Nekoosa Edwards Paper Co. in Port Edwards, Wis. Prior to that he conducted research for three other paper companies for short periods of time.

Belden is a 1956 graduate of the College of Forestry, majoring in landscape architecture. Since 1963 he has been a senior planner and landscape architect for Fred W. Toemmler & Assoc., in Silver Springs, Md., and during the period of 1958 to 1963 was a landscape architect for the National Park Service.

Cassidy received a B. A. degree from Brooklyn College in 1957, and an M. L. S. degree from Pratt Institute in 1963. He has been a teacher for the past eight years at the Army Education Center, Ansbach, Germany.

French is a 1957 graduate of the University of Miami, where he earned the B. S. degree. In 1959 he received an M. S. degree from the University of Idaho, and last June received the Ph. D degree from the College of Forestry. He taught botany at Paul Smith's College from 1962 to 1966, and prior to that was a plant pathologist for the Florida Citrus Experiment Station.

Johst was graduated from the College of Forestry in 1963 with a B. L. A. degree, and received the M. L. A. last June from the University of California at Berkeley. He was a teaching assistant at Berkeley, and has done planning work for Alameda County,
Knouse earned the B.S. degree in 1950 from the Wharton School of Finance and Commerce, and the M.L.S. degree in 1965 from State University College at Geneseo. He has been a librarian at the State University Colleges at Potsdam and Geneseo, and prior to that he was associated with industrial companies.

Welch graduated from the College of Forestry in 1952 with a B.S. degree, and earned the M.A. degree at Colgate University in 1965. For the past seven years he has taught science and physics at the Corning - Painted Post School District.

VISITING DEAN

The dean of the forestry faculty of Istanbul University, Turkey, will spend the week of October 2-6, studying educational methods and philosophy at the State University College of Forestry at Syracuse University. He is Mehmet Kemal Erkin, who is here under the auspices of an A.I.D. program.

His objectives will be to compare U.S. forestry education with that of European orientation, explained Charles C. Larson, director of the College's World Forestry Institute. "Natural resource problems in Turkey are similar to some faced in this country in recent years," Larson said.

Turkey, about the size of Texas and South Carolina combined, has some 13 per cent of its land in forests. Much of the land formerly growing trees has been denuded by shifting agriculture and cattle grazing. Sizable areas are in national forests, which constitute Turkey's most valuable watersheds. Range and watershed treatment is part of the government's forest development program, which includes intensive treatment of more than 100,000 hectares by the end of the year.

The University of Istanbul is the only institution in the country offering professional forestry education. Dr. Erkin is a graduate of the Ecole National des Eaux et Forests, France, and has studied forestry in Germany and England. He is the former director of a Forest Ranger School at Bolu, and has been the forestry dean at Istanbul since 1966.

Where are the Stumpiesses?
What do they do?
Who are they?
Are Stumpiesses foresters?
Do they have the true Spirit?
Will they be at the barbeque?
Do they have any talents, skills, muscle, wit?
Can they have fun?

PROPOSED:
An active part for the stumpiesses in the '67 barbeque!!

SUGGESTED:
A coed tug-o-war!! How about it fellas? Every year it's just one team of men against another - let's put some spice in that stale game.

Got any ideas? Write the Knothole or see Pete Bosch, he's always open for suggestions! If this is too late for the '67 barbeque, let's think about it for '68.

A Stumpiess Watcher
P.S. Got any grievances, comments, criticisms, questions? If you know a Stumpiess, you probably do. Write to Mrs. Smokey, c/o the Knothole.

OCTOBER NUPTIALS

The holy bands of matrimony are being announced for the 87th time between Philip A. Turkey and Mary Jane Squirrel. The wedding will take place on October 31, 1967 in Marshall Lounge.

IT TOOK SO LONG

Spin.
Turn within,
Running from nothing to nowhere.
I am the earth,
Created.

Heat.
Ringside seat,
A witness to Creation.
I am the earth,
Nurse me.

Civilize,
Inhabitize,
Cultures ever expanding.
I am the earth,
Growing.

Hep.
Full of pep.
A generating happening
I am the earth,
Moving.

Answer.
Deadly Cancer,
Soon a passing word.
I am the earth,
Advanced.

A Bore.
This thing called war.
It serves as selfdestruction.
I am the world,
Save me.

T. Francis Elf

BOTANY CLUB TRIP TO THE HIGH PEAK REGION

An overnight excursion through the flora of the Adirondacks is planned for Saturday and Sunday, the weekend of October 14th. The Gothics, one of the most impressive ranges of the high peaks, will be the main objective of the trip -- the summit of Gothic being one of the above timberline sites of alpine vegetation characteristic of the boreal regions of Canada and Alaska.

The organizational meeting for all interested students and faculty will be held
this Wednesday at 7:30 p.m. in room 326 Marshall Hall.

EMPLOYMENT

The Knothole staff is currently taking applications for a typist.

REQUIREMENTS:

1) fast, efficient and versatile
2) have access to a typewriter which will type mats

All secretaries currently employed at the College of Forestry will be given first consideration. EXCELLENT PAY. Anyone interested, please leave a note in the Knothole mailbox in Marshall Lounge and we will get in touch with you.
