I would like, for the entire Committee and myself, to express our sincere appreciation for the fine cooperation of the students, faculty and staff of the College in staging the Symposium on Design and Aesthetics in Wood and its accompanying Wood Design Exhibit. Without having the Student Lounge and the necessary classroom spaces available, the Symposium and the Exhibits would have been greatly restricted. We can only hope that you drew something from the talks and the exhibits that more than made up for the inconvenience you suffered.

Appreciation is especially due to the members of the Mollet Club for guide service during the Symposium and the members of the Wood Engineers Club for their help in construction of exhibits.

Our justification for superimposing this activity on the normal activities of the College is a simple one. Wood is one of the major products of the forest. To be marketable in quantity, wood has to be used correctly and must appeal to the consumer. Without good design based on an understanding of wood both its strengths and its weaknesses, this is not likely to happen. To help bridge the gaps that exist between the designer, the architect and the wood products industry was one of the prime purposes of this Symposium.

I have just named a few of the people who are responsible for use of wood. They are, by cause and effect, therefore responsible for the utilization of the forest in which we all have a vital interest and on which forestry is based.

You may be interested to know that opinions expressed by those people who came to the Symposium have been most complimentary. One quote: "...meeting on Design and Aesthetics in Wood was the most meaningful meeting I have ever attended. It is a good feeling for the Committee to know that all of you supported this effort.

Erie A. Anderson, Chairman
Symposium Planning Committee
CHRISTMAS TREES

Kappa Phi Delta, social and professional fraternity, is presently engaged in its annual Christmas tree and green sale. The trees and greens are of excellent quality and the prices are quite reasonable. This service includes free delivery.

Call X2470 or GR8-5302.

Drop in and look them over.

KAPPA PHI DELTA
200 Walnut Place

We'd appreciate your business!!!

BON VOYAGE

Any student who does not intend to register for the second semester of 1967-68 must notify the Student Services Offices in writing on a special form, available in room 107 Bray Hall, no later than January 13.

If he fails to give such notification, he will not be eligible to apply for the balance of his advance payment sent to Syracuse University.

Office of Student Services

MILTON AWARD

Milton Conservation Club Award - In 1964, the Milton Conservation Club established at the College of Forestry a fund to be used for the annual awards of $100 each. The recipient must be a resident of Onondaga County. First consideration will be given to sophomores, juniors or seniors in Resources Management, Forest Biology, and Forest Engineering curriculums. Applications are available in 107 Bray Hall and should be completed and turned in before December 12.

John Reeves
Financial Aids Officer

PULP AND PAPER

The Syracuse Pulp and Paper Foundation has received its first $10,000 endowed scholarship fund, and will grant $41,025 this year to pulp and paper students at the State University College of Forestry at Syracuse University. This was announced by Walter B. Morehouse, president, following the Foundation's annual meeting.

The endowed scholarship fund is a gift of the D. S. and R. H. Gottesman Foundation, in memory of the late Carlton F. Diskin, formerly vice president of Gottesman & Co., Inc. and Central National Corp. Mr. Diskin was a graduate of the University of Baltimore Law School, and during his career in government and business was associated with the Securities & Exchange Commission, the U. S. Treasury Department, and the Office of Price Administration.

In announcing the student grants for the current year, Morehouse stated that they would be awarded to 58 students -- 13 seniors 12 juniors, 15 sophomores, 15 freshmen, and 3 transfers. Size of individual grants varied from $500 to $1,050. Out-of-state students who qualify, receive an extra $300 to offset the increased out-of-state tuition charges.

By-Laws of the Syracuse Pulp and Paper Foundation provide that an endowed scholarship of $10,000 or more shall be recognized by a name chosen by the donor, with the principal restricted to investment and income used for an award to qualified undergraduate pulp and paper students.
GENETIC CONTROL IN TOMORROW'S FOREST

An illustrated talk by Dr. Gerald Stairs, professor of Silviculture at the College of Forestry, will be given on Friday, December 15, 1967 at 7:30 p.m. in room 326 Marshall. Refreshments will be served and everyone is invited.

SLIDE SERIES

Starting after the Christmas vacation, the Botany Club will sponsor a student lecture slide show series on botanically oriented topics.

Any undergraduates or graduates who would like to show slides on such topics as forest or vegetative types, tree species, unusual or interesting plants, mountain or desert environments, or other scenes of general botanical interest, please contact Fred Oettinger by student mailbox of Dr. E. H. Ketchledge, room 404 Marshall before vacation.

FRIEDBERG SPEAKS

M. Paul Friedberg, nationally recognized landscape architect for his design of the Riis Housing Plaza in New York and other environmental projects, will speak Monday, Dec. 11, at the State University College of Forestry at Syracuse University. His talk, "Landscape Architecture as a Social Catalyst," will be delivered in room 326 Marshall Hall at 7:30 p.m.

Friedberg has been a lecturer at Harvard University, Pennsylvania University, and Pratt Institute, and was a delegate member of the White House Conference on Natural Beauty in 1965, and the Urban America Conference in Washington, D. C., in 1966.

Much of his work has won national awards, including Chatham Towers, Carver Plaza, Nathan Straus Memorial Plaza, and the Spanish Pavilion at the New York Worlds Fair.

THE NEW KNOTHOLE IS COMING NEXT WEEK!!!!
