Go placidly amid the noise & haste, & remember what peace there may be in silence. As far as possible without surrender be on good terms with all persons. Speak your truth quietly and clearly, and listen to others, even the dull and ignorant; they, too, have their story.

Avoid loud and aggressive persons; they are vexations to the spirit. If you compare yourself with others, you may become vain and bitter; for always there will be greater and lesser persons than yourself. Enjoy your achievements as well as your plans.

Keep interested in your own career; however humble, it is a real possession in the changing fortune of time. Exercise caution in your business affairs; for the world is full of trickery. But let this not blind you to what virtue there is; many persons strive for high ideals; and everywhere life is full of heroism.

Be yourself. Especially, do not feign affection. Neither be cynical about love; for in the face of all aridity & disenchantment, it is as perennial as the grass.

Take kindly to the counsel of the years, gracefully surrendering the things of youth. Nurture strength of spirit to shield you in sudden misfortune. But do not distress yourself with imaginings. Many fears are born of fatigue and loneliness. Beyond a wholesome discipline, be gentle with yourself.

You are a child of the universe, no less than the trees and the stars; you have a right to be here. And whether or not it is clear to you, no doubt the universe is unfolding as it should.

Therefore be at peace with God, whatever you conceive Him to be; and whatever your labors and aspirations, in the noisy confusion of life, keep peace with your soul.

Be careful. Strive to be happy.

ATTENTION ALL ZOOLOGY AND WILDLIFE MAJORS: Please check your student mailboxes for an important Wildlife Society Newsletter.

WANAKENA, N.Y.—Daniel M. Castagnozzi has been appointed director of the Ranger School Forest Technician Program at the Wanakena Campus, according to an announcement by President Palmer.

Castagnozzi, a 1950 graduate of the Ranger School, received his B.S.F. degree from the University of Michigan and his M.S.F. degree from the College of Environmental Science and Forestry.

He has been a member of the College faculty for 16 years, teaching courses in dendrology, botany, mensuration, logging, accounting, surveying and aerial photogrammetry. His most recent position was as acting director of the Ranger School, assuming the duties of Jean E. Fisher, who returned to the College's Syracuse campus in July for an assignment with the Applied Forestry Research Institute (AFRI).

-SUNY College of Env. Science and Forestry Press Release

ATTENTION 1972 SUMMER FIELD SESSION STUDENTS!

We would like to do an article about Summer Camp in the Knothole but think that one person could never sufficiently describe it. Thus we are asking for your assistance. The format will be Cranberry Lake is... or Warrensburg is... (complete the sentence). Please place your contributions in the KH mailbox in Marshall basement.

CLUB PRESIDENTS

The Knothole is your paper. Use it to advertise your club's meetings and activities. Perhaps it might help prevent some of the duplicate scheduling of events which has occurred lately. It certainly isn't too much to drop a simple note as to time, day and place in the KH mailbox.

THE KNOTHOLE: The student publication of the State University College of Environmental Science and Forestry. Published every Monday. Students and faculty who have ideas about our College, notices they wish published, suggestions, stories, poems or anything that they think might interest our readers, are encouraged to submit these to the Knothole. Please sign name to articles and date them as well. Articles should be put in the Knothole mailbox no later than ten days before publication. Anyone interested in joining the Knothole Staff is invited to contact any of our members either in person or via student mail. We also welcome any comments and/or criticisms. These should be places in the Knothole mailbox.

STAFF: Editor: Barb Steves; Associate Editor & Artwork: John Karoly; Reporters: Sally Butler, Dave Dimnick, Pete Finn, Al Mollitor, Scott Tirrell; Special Assistants: Pat Casciere, Bill Kropelin, Don Schaufler; Faculty Advisor: Dr. J. V. Berglund; Typist: Doreen Squire.

PLEASE RECYCLE THIS KNOTHOLE
Autumn, contrary to belief, is a lusty young man shouting out his joy with life, dressed in scarlet and gold, sky blue, copper, and every colour ever created. But he spends his energy and weakens with age; his time at last is spent in thought which is Winter...

-Diane Kassmann

PREVIEW OF COMING ATTRACTIONS

Comments (and sabotage suggestions) are continuously being tossed around about the reformation of Bray rotunda. It has come to my attention that many are not clear on the total picture of what is to transpire. Let it not be said that the Knothole leaves its public uninformed. Next week's issue will feature an article which will "tell all" and fill in those blank spaces.

NOTICE—Meeting of the Graduate Student Association will be held in 334 Illick today, September 18, at 12:00 noon. Mondays at noon will be the time and day of the weekly GSA meetings. All graduates students are invited.

-Harold Burghart
GSA Secretary

On Thursday evening, September 21, Mr. Herbert Doig, Head of the Division of Wildlife for the New York State Department of Environmental Conservation will be speaking at the first Wildlife Society meeting of the year. Mr. Doig's talk will be on "The Role of Hunting in Wildlife Management" in conjunction with National Hunting and Fishing Day (September 23). The meeting will be held at 7:30 p.m. in the Conference Room of Moon Library. Refreshments will be served. Hope to see you there!

-Jean Shaback
Secretary
WOMEN'S LAW CAUCUS

A Regional Recruitment Conference to attract women into the legal profession will be held Saturday, September 23 from 9:30 a.m. to 5:00 p.m. in the Grant Auditorium of the Syracuse University College of Law. The speakers will include Judge Nanette Dembitz, the first woman to be nominated by a major party for a seat on New York's highest court and Faith Seidenberg, a prominent civil rights attorney and feminist. Free day care and lodging will be available and there will be a supply of application blanks from various law schools in the region. Women who want more information or who wish to arrange for lodging Friday or Saturday night should write the Woman's Law Caucus, Syracuse University College of Law, Ernest I. White Hall, Syracuse, New York 13210 or call 315-685-3745 after 5:00 p.m.

PIRG—the Public Interest Research Group held its organizational meeting last week and seems to be off on a slow but steady start. Due to the lack of publicizing the meetings, attendance was poor but it's hoped that more people will join once they hear of what's going on.

The big project for PIRG this year is on the atomic energy problem. Half a dozen or more plants are proposed for the Central New York region and PIRG units at Cornell and Syracuse will be coordinating their efforts into researching this area.

According to Hal Abramson, the Syracuse group leader for this problem, PIRG will try to answer a number of questions about these plants all stemming from the essential one of "Is there a real need for these plants in Central New York?" It was emphasized that PIRG is not trying to condemn or support the proposed plants but is rather trying to answer the legitimate questions of ordinary citizens without trying to influence them one way or another. Presuming they are needed, PIRG will take up other questions such as "Are they safe?" How effective is the emergency cooling system?" Environmentally, PIRG will look into the affects of atomic energy plants on thermal pollution and disposal of waste.

Another question to be raised is "What will be the economic relationship between the Federal, state and local governments and private business in this field?" A final area of research will be looking into alternatives to atomic power.

Mr. Abramson stated that since this is PIRG's big project of the year a lot of student help will be needed to research these problems. Information, he said, will be collected by people delving into past and present research and by questioning private industry and government. It will not be an easy job because naturally everyone will have their personal ideas for or against these plants. PIRG's job is to present the facts to the public and let them judge. If they fail this year it is doubtful that they would receive full student support, as represented by $300 of the student activity fee next year. For further information, contact Tim Byones or Tom Savage who helped represent the College at the meeting, or Hal Abramson at the PIRG office.

TEST DATES FOR NATIONAL TEACHER EXAMINATIONS ANNOUNCED

PRINCETON, NEW JERSEY, September 11. College seniors preparing to teach school may take the National Teacher Examinations on any of the four different test dates announced today by Educational Testing Service, a nonprofit, educational organization which prepares and administers this testing program.

New dates for the testing of prospective teachers are: November 11, 1972, and January 27, April 7, and July 21, 1973. The tests will be given at nearly 500 locations throughout the United States, ETS said.

Results of the National Teacher Examinations are used by many large school districts as one of several factors in the selection of new teachers and by several states for certification or licensing of teachers. Some colleges also require all seniors preparing to teach to take the examinations. The school systems and state departments of education which use the examination results are listed in an NTE leaflet entitled Score Users which may be obtained by writing to ETS.

On each full day of testing, prospective teachers may take the Common Examinations which measure their professional preparation and general educational background and a Teaching Area Examination which measures their mastery of the subject they expect to teach.

Prospective teachers should contact the school systems in which they seek employment, or their colleges, for specific advice on which examinations to take and on which dates they should be taken.

The Bulletin of Information for Candidates contains a list of test centers, and information about the examinations, as well as a Registration Form. Copies may be obtained from college placement officers, school personnel departments, or directly from National Teacher Examinations, Box 911, Educational Testing Service, Princeton, New Jersey 08540.
VOTER REGISTRATION

This November for the first time millions of young people get a chance to speak their minds on what the future course of this country's policies should be. For this reason the College of Environmental Science and Forestry is sponsoring a voter registration drive.

There will be two types of papers handed out at the booths on campus. One is an application for an application to register. For anyone who hasn't registered you send this form to your board of elections and they will send you an application for registration. This you fill out and send back to them. They will then send you a card certifying that you are a registered voter.

The second paper we'll be handing out is for students who are already registered. This is an application for an absentee ballot. This you send into your board of elections and they'll send you your ballot to vote.

We're hoping for a large turnout. You've got your chance to affect national policies now, I hope you'll use it. Remember the sign says: "Maybe they gave you the right to vote because they thought you wouldn't use it. Prove them wrong."

-Bob Loveless
