SUCCESS!

The first annual UN-BAR-B-Q has come and gone. I can honestly say that I had never seen or experienced a tradition initiated on this campus, but after Saturday February 5, I'm sure I witnessed my first.

All available data indicates the UN-BAR-B-Q was a tremendous success, but more important than this were the many people having a great time during the afternoon and evening. Close to two hundred people braved the wind and cold to take advantage of the day's activities, while 320 people attended at night.

I especially want to congratulate everyone who attended that night. You have showed that College of Forestry students and guests are very capable of handling alcohol at such a large college function. No problems were encountered and there was no damage. You can all pat yourselves on the back for helping initiate that particular facet of our new tradition. No one can say that Stumpies "can't handle their beer."

I would be most interested in receiving any comments on how next year's UN-BAR-B-Q can be improved. If you have a comment, drop it in my mail box in Marshall and I'll put it with the records for consideration next year.

A personal congratulation also goes to the ingenious person who produced an almost flawless counterfeit student. Congratulations!

-Steve Conowall
Pres. W.P.E. Club

P.S. Someone left a toboggan at Drumlins Saturday, February 5. If you lost this toboggan, call me at 3534. If you describe it correctly, you can claim it.

The GSA will sponsor another of its continuing series of Friday afternoon beerblasts with a TGIF!

on Friday, 25 February, from 4 p.m. until the beer is finished. Popcorn and soda will also be available. In the Eustace B. Nifkin Lounge.

All faculty, administrators, and graduate students are welcome. See you there!!
How to Freeze and Enjoy It

It's simple...go ice fishing. Standing out there on the windswept expanse of a frozen lake, fishing through a hole in the ice, can be a bone chilling experience for some. But for me, it's pure pleasure. Something about the barren loneliness of all those acres of flat hard water drag me out there every winter. And every time, I experience something all too rare—complete solitude. But even here it's harder to find than it used to be, what with the snowmobiles racing all over. Fishing from a snowmobile is great too, but only if you have one. Even so, there's solitude to be had and I enjoy every bit I can get.

For me, ice fishing started with a very old beat up truck, an axe, and five tip-ups I made from coat hangers and 2x2's, plus some frozen smelt. Chopping a hole in the ice with an axe is not as easy as you might think. Especially if the ice is more than half a foot thick, which it had better be if you're going to drive a truck on it. Since the hole always fills with water before you're done chopping you always get wet, but that's part of the game.

Once the holes are chopped and the tip-ups are set, there's nothing to do but wait. And since the secret of patience is doing something there's no better time to hop in the truck and do some spins on the ice, keeping watch on the flags of course.

That was many years ago and since then the crude tip-ups and the truck have passed away. Oh well, got a new set of tip-ups now, maybe next weekend I'll go ice fishin'.

Next week: How to go ice fishing and not necessarily freeze. Also: How to make a tip-up, or, bend-down as the case may be.

Mark Clark

Don't forget! College of Forestry sweatshirts and T-shirts, patches, decals, and book covers, as well as official "Stumpy Power" T-shirts are available now in the Student Council office, Room 18, Moon Library.

Special SURPRISE—"Super Stumpy" T-shirts will be arriving soon.

The following is a list of prices for the available articles:

1. Sweatshirts......$3.60  4. Decals.............$2.25
2. T-shirts (all)..$2.40  5. Book covers........$1.10
3. Patches.........$ .75

If you wish to purchase any items, you must pay for them at the Business Office, Room 102, Bray Hall. Then bring the receipt to the Council office to pick up your purchases.

The following is a schedule of times the office will open:

- **Monday:** Meade Hutchins, 12-1; Jim Goulet, 1-2.
- **Tuesday:** Diane Keplin, 9-10; Justin Culkowski, 10-11.
- **Wednesday:** Tom Backus, 9-10; Barb Ingerson, 10-11; Meade Hutchins, 12-2.
- **Thursday:** Jim Goulet, 9-10; Meade Hutchins, 11-1.
- **Friday:** Diane Keplin, 9-10; Mary Dills, 9-11; Barb Ingerson, 10-11.
- **Sunday:** (evening) 7-8 p.m., the Knothole staff will be in the Conference Room.

All items are sold at cost.

---

**SLIDES!**

The Botany Club is sponsoring an evening of slides on any topic from all over. If you would be interested in showing your slides, please contact Don Eaton, 472-0636.

**MOVIES!**

The Mollet Club is sponsoring professional and environmental films every Monday from 12-1 p.m. in 317 Marshall. Come on up and have lunch and enjoy a free flick.

---

The Navy Officer Information Team will be on the SUNY College of Forestry campus between the hours of 10:00 a.m. and 3:00 p.m. on February 22 and 23 in the rotunda of Bray Hall. This team is interested in talking to male and female students and graduates about the many programs which may lead to their being commissioned as officers in the United States Navy.

**STAFF:** Editor: Barb Steves; Associate Editor: Montana Brown; Artwork: John Karoly; Reporters: Steve Jones, Mark Clark, and Sally Butler; Special Assistance: Don Schaufler, Pat Casciere, Diane Keplin; Typist: Doreen Squire.
INTERNATIONALLY MINDED?

For those students who are planning to travel, study or work abroad—both graduates and undergraduates—information can be obtained on a number of programs in Room 303 Bray.

Dr. Charles C. Larson, as Director of International Forestry, has received brochures, application blanks, etc. both for courses offered by the State University of New York through the Office of International Programs, and courses offered by a number of other colleges and universities.

In addition, as a member of IIE (International Information on Education) the College has received information on world-wide study opportunities, scholarships, fellowships, and job information in foreign countries.

Application blanks for an International Air Travel Program are also available in Room 303 Bray.

FOR PERMANENT, SUMMER, AND PART-TIME JOBS!!!  FOREST ENGINEERING STUDENT JOB HUNTERS: Please see Ron Frodelius, Room 12A basement of Bray Hall from 1:00 to 2:00 p.m. on any day except Mondays. For general information on Federal, State and private industry opportunities your filling out A.F.E. Dept. form is necessary for us to help you. Information is available on: How to submit a resume, employer addresses, Civil Service exam schedules, etc. Both photogrammetry option and regular program F.E. students should sign up. Freshmen through grad students are welcome. (Service open until further notice.)

-Ron Frodelius

SNOWSHOE SHOOT

What's a Snowshoe Shoot? The "damp dozen" who were at the Archery Club's Fall Deer Shoot have an idea. They had a great time (in spite of the weather) shooting at 28 life-size animal targets scattered along a path in the scenic forest of Pratts Falls County Park.

The Snowshoe Shoot, scheduled for Saturday, March 4, will be set up like the Deer Shoot, but on a flatter course. To prevent the loss of arrows, all targets will be close-range small game animals. The large target butts (about 5 ft. square) should catch any stray arrows.

In case of heavy snow, archers with snowshoes or skis will be in the starting foursomes, so that those following will have an easy hike through the snow. All you need are your bow, at least 3 target or field arrows, and your winter footwear.

All students, faculty, and staff are invited to attend, to shoot, or just walk and watch. The object of the outing is fun for all, so come on out and enjoy the winter. We'll meet at the parking circle north of Bray Hall at 1:00 p.m., for rides to the park, on Saturday, March 4. Please sign up on the bulletin board in Moon Library to make sure there are enough cars.
