Need assistance with your resume, covering letters, interviewing techniques, planning your job campaign? Career Services will be presenting two Employment Preparation Seminars during February to assist you. Each seminar will be presented in two parts on consecutive evenings. Plan to attend!

Prepare yourself now!

Wed. and Thurs.
Feb. 11 and 12th
Marshall 110
4:00 P.M.

Tue. and Wed.
Feb. 24 and 25th
Marshall 110
7:30 P.M.

Interested in finding out what Cooperative Extension is, who they serve, what professionals make up this service? Career Services is presenting a group meeting to address these questions and many more. Mr. Dave Taber will host a slide/discussion program and is very interested in acquainting you with the Cooperative Extension Service. Take advantage of this opportunity, bring your questions. A number of our recent graduates have pursued careers as extension agents.

Tuesday, February 10th
5 Illick
7:00 P.M.

William Sheldon
Director Career Services

The U.S. Department of Agriculture announces it is currently accepting applications for Student Trainees in:

Engineering (Civil)
Soil Conservation

A limited number of vacancies exist in New York, New Jersey, and Puerto Rico. Successful applicants will participate in special training programs consisting of planned on-the-job-training during the summer vacation period and attendance at college during the scholastic year. Applicants are expected to attend college on a full-time basis following the periods of summer employment.

This is a training program leading to an entry level career opportunity—not a temporary summer job.

For details, see Mr. Sheldon, Office of Career Services, 108 Bray Hall. Deadline for applications is April 15th.

Joke of the Week: (editor's note—?)

G.A.: “I suppose you’ve heard the joke about the roof?”
S.M.: “Nope, can’t say I have.”
G.A.: “Good. It’s probably over your head anyway.”

The Knothole will accept any decent joke from any of our readers. Save this campus from bad jokes, send in a good one.

J.F.

FOUND: one ring on Tuesday, January 27 on the steps between Bray and Marshall. To identify, please see Dr. Bennett in Room 322 Bray.
STUDENT ELECTIONS

It's almost that time of year again — time for you to get out and vote for your student class and council officers. If you want to run for an office, or you know someone who does, then all you have to do is submit their name to one of your present class or council officers, OR put it in the Student Council mailbox addressed to the Nominations Committee. Nominations will be accepted only from Feb. 23 to 5 p.m. March 5. In order to qualify for a position on Council, you must have at least a 2.2/4.0 cumulative average at the end of the semester preceding elections. Each candidate's picture will be posted in Moon Library as soon as his/her nomination is received and checked by the committee. Also, each candidate should submit a 3x5 index card that has his/her reason(s) for running written on it. These will also be posted beneath their picture. Elections will be held March 17 and 18 and the results announced at the Spring Banquet on March 25.

So start thinking about who you would like to see in your student government. At the end of the 2nd week nomination period, let's have at least two candidates for each position. Don't be apathetic!

Charlene M. Hamiwka
Chairman, Nominations Committee

S.A.F. News

Ah, yes, that Mt. Katahdin tent raffle was held. Unfortunately, you all succumbed to the evils of probability except Richard Sobel, that fortunate man. Richard is a part-time student here at the C. of E.S.&F. and although it took some time to contact him, that made the thrill of victory even more shocking to him.

The raffle was quite a successful venture for the student chapter and all proceeds will go into the treasury for use on future trips and activities. This semester for the student chapter promises to bulge with interesting activities for all to participate in, averaging two per month, if we are lucky.

Next week on February 4, 5, 6 is the New York Section Meeting of S.A.F. in Albany. If any student members would like to attend for Thursday (5) but do not have a ride they may contact Steve Loveland. Hopefully, the $14.00 registration fee will be flexible in special cases.

The Student Chapter was very fortunate in having Bill Kropelin of Brown Paper Company (New Hampshire) give an evening talk on “Whole Tree Utilization.” We appreciate his remaining beyond Dr. Johnson’s Regional Studies class to expose additional students to this relatively new method of harvesting for fiber.

David P. Paradowski

THE WILDLIFE SOCIETY NEWS

TWS successfully started out the new semester with an illustrated talk by Pete Gaskin on coyotes of New York State. The many who attended were treated to an informative and interesting talk on this elusive mammal.

Highlights of this month include a talk on Feb. 26 by Mr. John Proud, Associate Biologist for DEC, on the 1975 deer harvest in region 7 and its relation to long term deer management in Central N.Y. Keep your eyes open for details. Also, several Society members plan to attend the state chapter meeting in Albany, Feb. 4-6.

We would like to remind the student body to turn in your answer sheets for the first wildlife quiz which is now on display in the foyer of Illick; any reference source may be utilized. Get your entries in now and win your choice of any Peterson Field Guide. In case of ties, a winner will be selected by drawing. For additional Society information see TWS bulletin board on the second floor of Illick.
